

Krysten Boylan

Licensed Esthetician

Krysten is a very well-respected Licensed Esthetician and expert on Eminence Organic Skincare. Graduating from ABC School of Cosmetology and Nail Technology Inc in 2012 and obtaining her Esthetician's License was just the beginning for Krysten. Since then, she has completed numerous advanced courses and many hands-on trainings for Eminence Organic Skincare. She is also certified in Reiki energy work and holistic studies.

Krysten has always had a passion for skincare – a passion that was first developed after she dealt with some troubled skin. She enrolled in school to solve her skin issues and realized this was her calling. She loved the idea of not only making people beautiful on the outside but help give suggestions on how to treat the skin from the inside. She was first introduced to Eminence in school. She learned that the skin was the largest organ of the body and it absorbed everything it encounters; therefore, she is avid about organic skincare.

After discovering Eminence Organic Skincare products, she was so impressed by their effectiveness that she made the decision to offer the products exclusively and continues to broaden her knowledge of the line by taking every advanced product course that is offered. Because of all the advanced hands on training she has received, Krysten is an expert in blending and mixing the Eminence products to provide a customized skincare experience for all her clients. She has learned the Eminence Hungarian massage techniques that helps sets an Eminence facial apart from a normal facial.

Enhancing Your Beauty Naturally

Art & Nature uses a safe, effective vegetable-based dye that instantly adds definition to the eyes. Guaranteed to be the kind of quality, long-lasting results that will keep you coming back. Creates a finished look without mascara or brow pencil. Tint lasts 3 to 6 weeks. Services time between 10-30 min.

✓Brow Tinting

Wake up to the look of makeup. A hint of tint adds oomph to your arch. Your custom-blend tint awaits. Brow tinting can be the perfect solution as it helps to fill in the sparse areas and define the brow shape, while creating the illusion of thickness. Various vegetable-based dye shades are available to match your skin tone with your hair and eyebrows. (\$20)

✓Eyelash Tinting

Tinting the eyelashes is a quick and easy solution for those who depend on mascara to darken lightly-colored lashes. This treatment is perfect for men and women with blonde, reddish or light brown hair that want more clearly defined features. Whether you want to wake up in the morning with your "eyes on" or forget about waterproof mascara during the summer time, you'll be thrilled with the results of eyelash tinting (\$20)

✓Brow and Lash Tint Combo (\$35)

✓Ear Candling

This is a relaxing method to clean out ears of excess ear wax, moisture, and can help relieve sinuses. It helps to balance equilibrium, including vertigo. Ear Candling effectively draws wax and other impurities from the ear. It helps with minor hearing loss, ear infections, sinus problems, allergies, and generally improves clarity in the ear, nose and throat cavity.

Ear candling uses a hollow, slightly coned candle and relies on simple laws of science for its effectiveness. The flame of the candle creates a draw or a vacuum, which pulls the wax, fungus, candida, and remnants of past infection out of the ear and into the bottom of the hollow candle. (30-60 min / \$45-\$90)

Hair Removal Treatments

We use NuFree®, a soy-based botanical, antibacterial & antimicrobial liquid hair removal method.

We regret that waxing services cannot be performed on clients using Accutane, Retin A, or any antibiotics due to sensitivity of the skin. Also, please do not sun bathe or use a tanning bed 24 hour before or after any hair removal treatment.
